Interesting Facts about BEARS...

- Club was organized in 1992 in response to Hurricane Andrew
- Repeaters throughout the Parish are owned by St. Mary Parish Government and maintained through cooperation with local hams
- Our current base of operations is provided by St. Mary Parish Government. The club owns its own equipment, antennas, and generator
- In cooperation with the Town of Berwick, we have a permanent antenna set up along the Atchafalaya River that any visiting ham can activate with their own HF rig
- The club participates in 3 - 6 public events throughout the year to bring attention to our great hobby
